

# SOCVIEWS on Families

## MAKE THE CONNECTION

After reviewing the chapter, answer the following questions:

**1**  
How would each perspective shed light on the use of online dating services and apps such as Tinder?

**2**  
Take a look at the graph showing family types over time. What factors would each perspective focus on to explain the changes over the years?

**3**  
Why does a functionalist definition of what the family does provide more insight into families today than trying to define what it is?

**4**  
Who rules in your family? Would a functionalist, conflict, or interactionist perspective best describe your family dynamics?
