After reviewing the chapter, answer the following questions:

- 1 The "Education Pays" graph shows higher income as one benefit of more education. Using each perspective, how else does education pay? Who benefits?
- 2 How do educational institutions bestow status according to both the functionalist and conflict perspectives?
- 3 Using the conflict perspective, describe how women experience (or have experienced) discrimination in both the educational and religious spheres.
- 4 Which perspective do you think best describes the dynamics of a typical classroom setting? Explain, including examples.
