

SOCVIEWS on Population, Health, and Environment

MAKE THE CONNECTION

After reviewing the chapter, answer the following questions:

- 1 How would each perspective approach the study of the protests over the Dakota Access Pipeline?
- 2 How would each of the perspectives approach the demographic transition model, and how would their insights differ?
- 3 What insights would we gain from each perspective regarding the current state of health care in the United States, including recent health care reform efforts?
- 4 Look at your experience with the medical world from an interactionist perspective. What were your interactions with the doctors and nurses like? Have you taken an active role or a passive role as a patient?
